WTW000131	Kilchrenan	Green	Green	Green

Key: Water

Scottish Water (SW)

- **Red:** No capacity available. Limited connections may be permitted subject to MOU agreement where required.
- **Amber:** Limited capacity for development. Development can proceed subject to a check of the overall SW/RAG capacity. If additional development needs are required, this should only proceed subject to a documents MOU agreement as above.
- **Green:** No capacity issues. Development can proceed subject to a check of the overall SW SEPA RAG.

SEPA

- **Red:** At Good Ecological status but at significant risk of deterioration OR below Good Ecological Status.
- **Amber:** At Good Ecological Status but at significant risk of deterioration OR below Good Ecological Status.
- **Green:** At Good Ecological Status

OVERALL

Identifies where development capacity exists and/or actions are required to enable planned development to progress. Where the overall RAG is Green, there is asset and environmental capacity subject to the surplus available, where Amber, there can be a capacity restriction for either the environment, the asset or both and where Red, there is a capacity restriction for either the asset, the environment or both.
