

Contains Important Scottish Water Information

Project Reference

Capital/533147/CWA

Our Alliance Partner Caledonia Water Alliance will be carrying out this work on our behalf.

14th July 2025

Taking care of the water supply in your area.

What we are doing

We are currently taking care of the water services in your community by upgrading the water pipes between Riverside of Blairs, Ardoe and Devenick to ensure you continue to enjoy clear, fresh drinking water, and reduce the chance of pipes bursting. We can now confirm the planned dates and durations for the sections of work in the road that require road closures and a lane closure (See overleaf for details of works locations). These will be carried out on a rolling basis.

When are we doing it

The sections of work in the roads are planned to start from 31st July 2025 on a rolling basis for approximately 6-7 weeks.

What happens next

- For the road closures (sections 1 & 2), local diversions will be signed. Access to individual driveways within each road closure section will be maintained where possible. Should there be any restrictions to this, our site team will liaise with any affected customer to manage access
- For the lane closure on the B9077, temporary traffic lights will be in place to manage the flow of traffic.
- Approximate dates for each section in the roads can be found overleaf.
- Our contractor Chap Civils will be carrying out this work on our behalf and they will do all they can to keep any disruption to a minimum.

We thank you for your patience and understanding whilst we carry out these essential works

Yours Sincerely
Clive Duncan
Customer Manager
Caledonia Water Alliance
