Capital/530110/CWA

Our Alliance Partner Caledonia Water Alliance will be carrying out this work on our behalf.

10th January 2025

Taking care of your sewer network in your area.

What we are doing

We are taking care of the sewer network in your community. As part of this work, we will be carrying out CCTV manhole & sewer surveys and manhole lid replacement work. The survey works will help us plan future improvement works. This work is planned to take place in Moncur Crescent and Dens Road, Dundee – see overleaf for location details.

When are we doing it

Work is planned to start from Tuesday 21st January 2025 for approximately 3 days.

What happens next

- During the work there will be lane closures along with temporary traffic lights in place in Moncur Crescent and Dens Road. See over leaf for location details. Please follow all signage.
- During this time there will also be parking restrictions in place in sections of Moncur Crescent and Dens Road where our works are taking place. Details can be found on the image overleaf.
- The works involve accessing manholes to carry out CCTV surveys. Should there be any issues with the manholes, we may have to replace the covers. Should this happen then this will involve some construction activities.
- Pedestrian access will be maintained at all times.
- There will be no disruption to water or waste water services during these works.
- Our contractor Environmental Techniques will be carrying out this work on our behalf and they will do all they can to keep any disruption to a minimum.
