

**Scottish  
Water**

Trusted to serve Scotland

# Our Land Strategy Team

**The team was formed in 2023 following an increase of visitors at key Scottish Water sites such as Gladhouse Reservoir.**

We currently have two Visitor Management Rangers situated at Gladhouse who carry out regular patrols of the site and are readily available to engage with members of the public.

Our Rangers will be on hand to advise visitors of the access changes as a result of the capital project work.
