

Site:	Site Operator:	Date:
Nigg Wastewater Treatment Works	Kelda Water Services Grampian	8 th November 2017

WHAT is happening?

Nigg WwTW site operators, Kelda, will be undertaking planned maintenance to the lamella settlement tanks. This work is programmed to take around two weeks. This exercise is similar to that carried out in June 2017.

All intrusive work will be carried out within the building, which has dedicated odour extraction and treatment. All reasonable efforts will be made to minimise periods when doors are opened for access in line with the Odour Risk Assessment and Odour Management Plan.

WHY are we telling you?

As part of our ongoing commitment to minimise any inconvenience associated with the operation of the treatment works, we recognise the need to maintain open communication with our neighbours. An odour risk assessment has been undertaken and we would like to assure you that Kelda are aware of the need for careful management of the maintenance works. As a look ahead, a similar activity is due to commence towards the end of November and we'll provide a further update at that time.

WHEN is this happening?

8th November 2017 until 20th November 2017

WHERE is this happening?

Within the Waste Water Treatment Facility:

WHO to contact:

Regional Communities Team Manager gavin.steel@scottishwater.co.uk	Scottish Water Contact Centre 0800 0778778	SEPA Pollution Hotline 0800 80 70 60
---	---	---

WEATHER forecast:

The wind direction will predominantly be away from the community during the works.
