

# DRAINING THE RAIN

Scottish  
Water

We are carrying out essential improvement works to the wastewater network in your area. This work involves constructing a new storm overflow pipe, new storm overflow chamber and new storage culvert sewer to help alleviate flooding and improve the environment of the River Spey.

Thank you for your patience and understanding whilst we carry out these essential works. Any questions? Call Scottish Water on 0800 0778 778 quoting Ref: Capital/507545/CWA
